Titles

A

Ammonia Converter Operation 118
Ammonias Synthesis Enhancement Through Heat-Mass-Exchange .. 122
An Assessment of Burning Waste Fuel in Circulating Fluidized Bed Boilers ... 46
Anhydrous Ammonia Explosion in an Ice Cream Plant 17
A Simple Technique for the Optimization of Layout and Location for Chemical Plant Safety 57

C

Commissioning of CIL's Ammonia II Plant 106
Computer Room Risk Assessment 68
Correlation of Acid Gas-Ethalolamine Equilibrium Using Ionic Concentrations 112

D

Damage to and Replacement of an Ammonia Storage Tank Foundation 129

E

Effect of Fireproofing Design on Thermal Performance of Horizontal Members with Top Flange Exposed ... 193
Emergency Preparedness and Response 6
Environmental Compliance Without Sacrificing Customer Requirements 185
Estimation of Catastrophic Quantities of Toxic Chemicals by Atmospheric Dispersion Modeling .. 215

F

Fire at Semi-Lean Pump by Reverse Motion 162
Flame Barrier Valves 175
Functional Requirements and Design Criteria for the Design of High Hazard Containment Laboratories 146
Future Requirements for Unrestricted Entry into Confined Spaces 142

G

Gas Plant and Fuel Handling Facilities: An Insurer's View 199
Gas Plant Problems and the Insurance Industry 190
Guidelines for Hazard Evaluation Procedures: Preparation and Content 63
Guidelines for Vapor Release Mitigation 171

H

Hazard Analysis and Safety Considerations in Refrigerated Ammonia Storage Tanks 84
Health, Safety and Environmental Protection: A New Audit Program .. 211
Health, Safety and Loss Control Topics in the Senior Design Courses 73

I

Increasing Efficiency in Direct Contact Heat Transfer 208
Inhibitor-Oxygen Interactions in Acrylic Acid Stabilization 188
Inspection of Ammonia Plants 35
Investigation and Repair of an Auxiliary Boiler Explosion 42

L

Laboratory Techniques for the Quantitative Study of Thermal Decompositions 89
Looking Back and Wishing 127

P

Performance of Low Pressure Explosion Vents 98
Runaway System Characterization and Vent Sizing Based on Diers Methodology 77

S

Shipboard Polymerization of Acrylic Acid 203

T

The Effect of Oxygen and Water on Stress Corrosion Cracking of Mild Steel in Liquid and Vaporous Ammonia 11
The Effects of System Dynamics on Failure: Illustrative Examples ... 20
The Interaction of Shock Waves on Cylindrical Structures 52

U

Understanding Cooling Towers: The Route to Energy Savings 181
Unusual Operating Histories of Gas Processing and Olefins Plant Columns 151
Using Robots to Reduce Personnel Radiation Exposure at the Savannah River Plant 165

V

Vibration Monitoring — A Programmed Approach ... 1
